International Research Awards on Computer Vision

CALL FOR ABSTARCT – COMPUTER AWARDS

About Awards: ScienceFather takes the privilege to awarding the Industries, Academicians, Researchers, Scientist, and Regulators from Science, Health and Medical fields across the globe to its International Events. The International Conference on Computer Vision is an annual gathering. This Event is a unique international platform that's a meeting of all Researchers. We look forward to personally welcoming all the award winners.

Objectives: The International Conference on Computer Vision International Events is awarding high quality Researchers in different subfields. The purpose of award ceremonies and assemblies is to celebrate researcher achievements and motivate them to continue on their path. The Good researchers are more motivated to succeed in their research field. People want to be respected and valued by others for their contribution. Offer the opportunity to be updated on the latest research outputs on several topics. Organize specific workshops around the most attractive and current issues. Gather worldwide experts as Event speakers.

Key Features and Excellent Venue | Inspiring Speakers | Certificate | Medal | Memento | Stage Photograph | Awardees listed on website.

Topics of Award Subjects include, but are not limited to: Object Detection and Recognition | Image Processing and Enhancement | Computer Vision for Robotics and Autonomous Systems | 3D Computer Vision | Medical Image Analysis | Video Analysis and Understanding | Deep Learning for Computer Vision | Applications of Computer Vision | Human-Computer Interaction and Augmented Reality | Biometrics and Security | Deep Metric Learning | Machine Learning for Computer Vision | Vision and Language | Computational Photography | Generative Models for Computer Vision
